**RONGXUAN CAI, and
CONAGRA BRANDS, INC.,**

Case No. 0:20-cv-2157 (JRT/HB)

I, Mark Lanterman, declare as follows:

1. My name is Mark Lanterman.¹ I am the Chief Technology Officer of Computer Forensic Services (“CFS”) located in Minneapolis, Minnesota. CFS and I have been retained by counsel for Plaintiff Schwan’s.

2. On September 13, 2021, I submitted a declaration describing my and CFS's work to preserve, assist in the identification of, and remove potentially relevant files from Mr. Cai's personally owned electronic devices.

3. As described in greater detail in my previous declaration, CFS observed both active (undeleted), and deleted files on Mr. Cai's devices. CFS provided complete

¹ Exhibit 1 to this Declaration contains my curriculum vitae, including a list of cases in which I have testified in the last four years, as well as a list of articles I have written for several publications throughout the past 10 years. CFS is compensated at a rate of \$325 per hour during normal business hours and my time is billed at \$625 per hour for this declaration. CFS's compensation is not dependent upon the outcome of this case.

listings (spreadsheets) detailing all deleted and active files from Mr. Cai's devices, which included information such as file name, file path (location), timestamps, and a hash value for each file.² CFS was instructed to refrain from searching, viewing, or providing Plaintiffs' counsel "...any documents, files, or content from Mr. Cai's devices." (See Lanterman Decl., Sep. 13, 2021, ¶ 13).³

4. From the file listings, counsel for Plaintiffs identified 68,874 files (of which 39,953 of the files are unique), believed to have originated from Schwan's systems. (*Id.* ¶ 14). CFS and I did not participate in the selection of potentially relevant files. Plaintiff's counsel, in turn, provided the list of selected files to CFS, so that CFS could excise them from Mr. Cai's personal devices, which CFS completed. (*Id.* ¶ 15).

5. I offer this declaration to supplement my initial declaration. Working in concert with Plaintiff's counsel, I have identified features of files from Mr. Cai's personal devices, which demonstrate the likelihood that they originated from Plaintiff.

I. The files' metadata references the subject matter of this action and are associated with the period of Mr. Cai's employment with Plaintiff.

6. As noted in my previous declaration, I observed that the names of files identified by counsel reference the subject of this litigation (dough, yeast, lemon meringue, etc.). In addition to the names of the files identified by counsel, nearly all were associated with dates that span the period that I understand Mr. Cai was employed by Plaintiff (approximately 2003 through 2017).

² A hash value is like a file's fingerprint, and it is unique to the file.

³ I note that if CFS and I were permitted to search and review the content of the files, additional information, which could inform an opinion about the files' origins, may be made available.

7. Similarly, the names of *deleted* items also refer to the same subject matter (e.g., dough) and are associated with dates that encompass Mr. Cai's employment with Schwan's. Approximately 92% of unique, deleted files from Mr. Cai's Toshiba external hard drive are associated with the period 2003-2017.

8. For example, the phrase "Schwan" appears in the paths (locations) or file names of at least 3,469 items, which were deleted from Mr. Cai's 500 GB Toshiba hard drive at some point before CFS received it. The files span between 2002 and 2021, with approximately 95% being associated with dates between 2003 and 2017 (e.g., the period that Mr. Cai was employed with Schwan's).

9. Plaintiff's counsel has shared with me a list of key words that may provide a basis to indicate whether a file is related to Plaintiff. I have identified these terms in the names, and paths (locations) of items that had been deleted from Mr. Cai's devices before they were provided to CFS. The terms that Plaintiff's counsel has provided to me are:

- a. Innovation
- b. Salina
- c. Florence
- d. Farinograph
- e. Mixograph
- f. Risograph
- g. Viscograph

10. Table 1 below summarizes information about the appearance of these keywords in file paths associated with items that were deleted from Mr. Cai's 500 GB Toshiba external hard drive.

Keyword	Innovation	Salina	Florence	Farinograph	Mixograph	Risograph	Viscograph
# of Items	11,211	2,814	1,585	427	320	372	70

Table 1

11. I further understand that file locations (paths) that reference “Spec/” “Specs/” or “Specifications/” may likewise be associated with Plaintiff. Plaintiffs’ counsel identified a total of approximately 1,370 active files that are located within folders containing “Spec/” “Specs/” or “Specifications/.”

12. There are approximately 8,489 deleted items that reference “Spec/” “Specs/” or “Specifications/”. As an example, the files listed below, were identified as having been deleted from Mr. Cai’s 500 GB external hard drive, which was provided to CFS⁴:

- a. /Rong/Rong Marshall/Other's/Specs/Eggroll/Eggroll/69993 herb chick ER.pdf
- b. /Rong/Rong Marshall/Rong 2013/Projects/Flour quality and functionality/Specs/Heat Treated Flour 36050 [redacted].pdf
- c. /Rong/Rong Marshall/Rong 2011/Project/Self-Rising Crust/Specs/1002891 Xantan Gum [redacted].pdf
- d. /Rong/Rong Marshall/Other's/Specs/Pizza/Self-rising/FreschwholeGrain29927.rtf
- e. /Rong/Rong Marshall/Other's/Specs/Pizza/Self-rising/Hand Tossed Baron's Best/Spec Hand Tossed 3010103.xls
- f. /Rong/Rong Marshall/Rong 2013/Projects/Flour quality and functionality/Specs/34537 Big E-Tab Enzyme blend CLX [redacted] 6-17-2013.pdf

⁴ Please note that four (4) filenames listed in ¶12(a-p) contain “[redacted].” Any such redacted portion of a filename has been represented to me as the identity of Schwan’s suppliers, which are confidential, and have been removed to allow for the public filing of this declaration.

- g. /Rong/Rong Marshall/Rong 2013/BU Support/Greek Yogurt Atlanta/Specs/4001002 Lemon Condense Pie.xls

13. From the spreadsheets listing deleted documents, Counsel has identified the filenames listed in Table 2 below. I have confirmed that these file names and paths are associated with files deleted from Mr. Cai's 500 GB Toshiba external hard drive.

Table 2

II. Email messages were sent to or from Schwan’s email accounts, indicating that they originated with Schwan’s.

14. Of the 39,953 unique files identified by counsel, 12,582 represent individual email messages (.msg files).⁵ Of these 12,582 unique messages, approximately 500 contain the term “Schwan” in the file name – which represents the underlying email’s subject line. It is also important to note that several of the emails contained attached files.

⁵ These emails were identified on Mr. Cai’s 500 GB External Hard Drive, which was provided to CFS.

15. I have further determined that vast majority of these emails (11,938 of 12,582) were either sent or received by “@schwans.com” email accounts.⁶ The earliest email is dated March 23, 2009, and the most recent email is dated December 8, 2017.

16. Individual email files (.msg files) also comprise a substantial portion of the observed deleted files. Deleted email files span the relevant periods of Cai’s employment with Schwan’s, and some of which refer to the subjects noted previously. (*See supra.* ¶¶ 8, 9(a-f), 10-12).

17. I respectfully reserve the right to supplement or amend this declaration should additional information be made available to me, or should additional details be requested.

I declare under penalty of perjury under the law of the United States that the foregoing is true and correct.

Executed this 17th day of December 2021.

A handwritten signature in black ink, appearing to read "Mark Lanterman", with a stylized flourish at the end.

Mark Lanterman

⁶ Original email messages often contain important contextual information about an individual message. This information is often referred to as “email headers.” Email headers contain information about a specific message such as date, sender, recipient, and subject line. As an analogy, “email headers” are like an envelope of a letter, describing where a message came from, to where it was sent, and when.

Professional Biography

Mark has over 25 years of experience in digital forensics, e-discovery, and has provided education and training to a variety of audiences. Prior to founding Computer Forensic Services in 1998, Mark was a sworn law enforcement investigator with the United States Secret Service Electronic Crimes Task Force. Both federal and state court judges have appointed Mark as a neutral computer forensic analyst.

Mark is a member of the Minnesota Lawyers Professional Responsibility Board and serves as Chairperson of its Opinion Committee.

Mark frequently provides training within the legal community, including presentations for the United States Supreme Court, Georgetown Law School, the 11th Circuit Federal Judicial Conference, the 8th Circuit Federal Judicial Conference, the American Bar Association, the Federal Bar Association, and the Department of Homeland Security, among others.

As a member of its faculty, Mark has presented to the entire Federal Judiciary through the Federal Judicial Center. Mark is faculty at the National Judicial College, Mitchell Hamline School of Law, and is an adjunct instructor in the University of Minnesota's MSci Security Technologies program. Mark is also a professor at the Saint Thomas School of Law.

Mark provides frequent commentary about cyber security issues for national print and broadcast media, including ABC, Bloomberg, BusinessWeek, CBS, Fox News, NBC, *The New York Times*, NPR, and the *Wall Street Journal*.

Education and Certifications

Upsala College - B.S. Computer Science; M.S. Computer Science

Harvard University - Cybersecurity

Department of Homeland Security - Federal Law Enforcement Training Center
Seized Computer Evidence Recovery Specialist

National White-Collar Crime Center - Advanced Computer Forensics
